

Graphing Exponential Functions

Graph each function. State the domain and range.

- **7. BIOLOGY** The initial number of bacteria in a culture is 12,000. The culture doubles each day.
 - **a.** Write an exponential function to model the population *y* of bacteria after *x* days.
 - **b.** How many bacteria are there after 6 days?
- **8. EDUCATION** A college with a graduating class of 4000 students in the year 2008 predicts that its graduating class will grow 5% per year. Write an exponential function to model the number of students y in the graduating class t years after 2008.
